A Trip to the Clinic

Today the Gang are going on a special trip.
They are going to visit their clinic because
Megabyte and Big Eye have been asked to go
and see their Nurse, Doctor
and Anna the Dietitian.

“Do we have to go to the clinic again?
They always ask lots of questions and make us
do lots of tests” asked Big Eye.

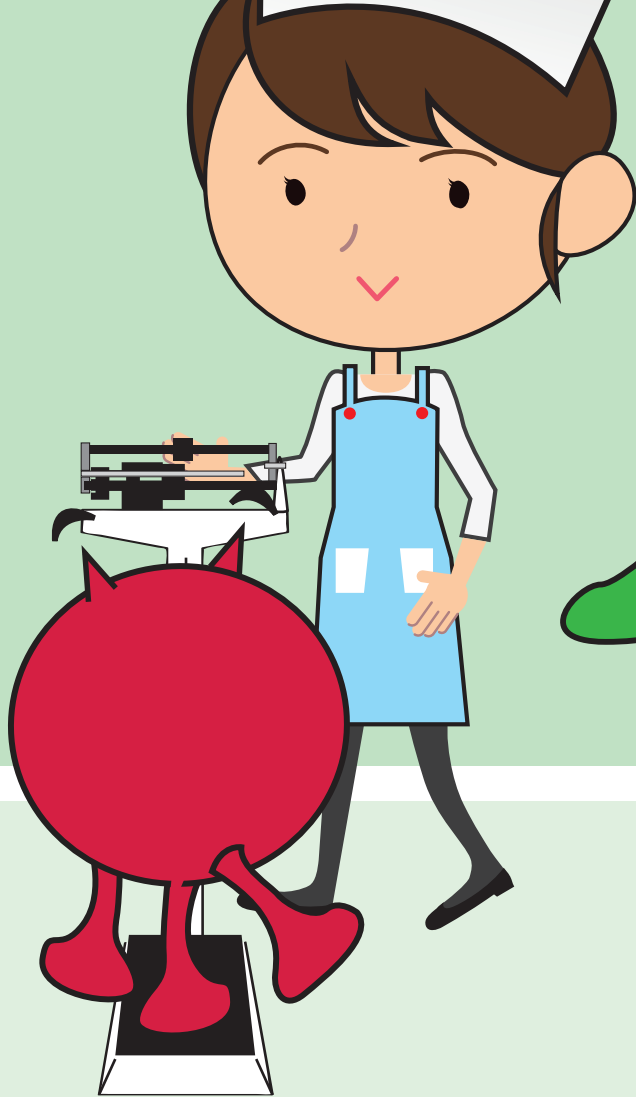

“Yes we do have to go as they check that we
are healthy, and you can always ask why they
do each test, it might help you to understand
more.” explained Brains.

After a short journey they arrived at the clinic.

They all took their seats in the waiting area.
Megabyte liked to play with the toys that were
there and read the story books.

“Megabyte and Big Eye are you ready?” called
the Nurse, who smiled a lot. She took them into
a room and measured their weight and height
to make sure they were growing well. Then she
took some blood from their arm to check they
had the right nutrition in their body.

Next they went in to see Anna the Dietitian.
She was very nice and made them feel relaxed.

“Good morning! How are you both today?”
asked Anna.

“Good thank you, we have been wondering what kind
of things we will do today!” they said.

“These are little tests we do on everyone who has a
special diet like you. We just need to check that the
foods you are eating are keeping your bodies healthy.
So, shall we begin?”

Anna asked lots of questions about the food
they were eating and checked they had been taking
their special protein drinks.

Megabyte and Big Eye really enjoyed telling Anna
about all of the delicious food they had been making
since the last time they had seen her.

Finally it was time to go and see the Doctor,
He wanted to test their reflexes.

One of the tests was touching
the tip of their noses and then touching the
tip of the Doctor's finger!

This was very funny and made them both giggle!

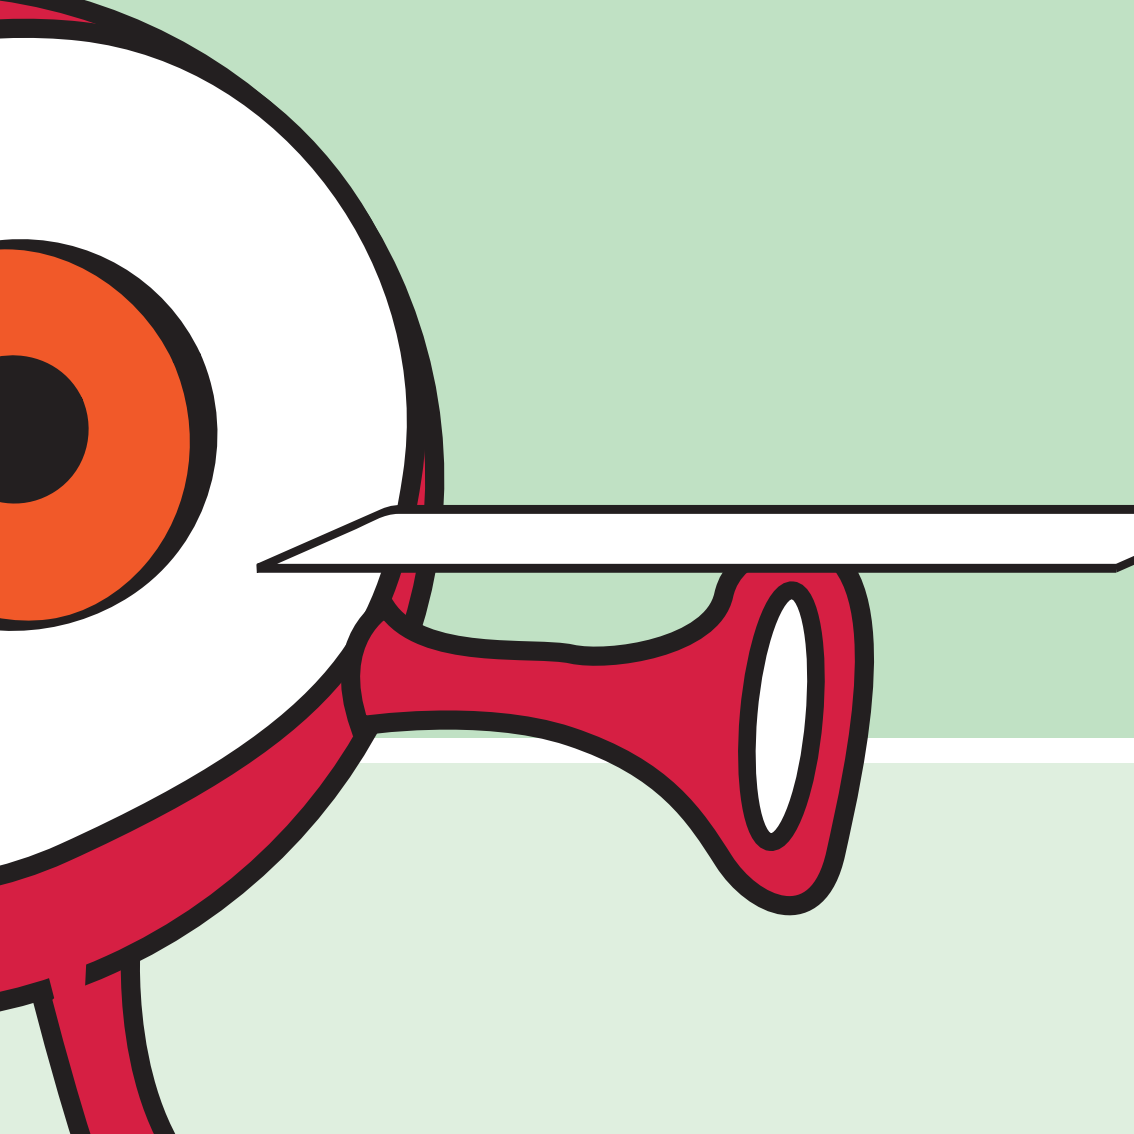

Another one of the tests was balancing a piece of paper on the back of their hand.

Big Eye was especially good at this!

They both giggled again as they completed all the tests.

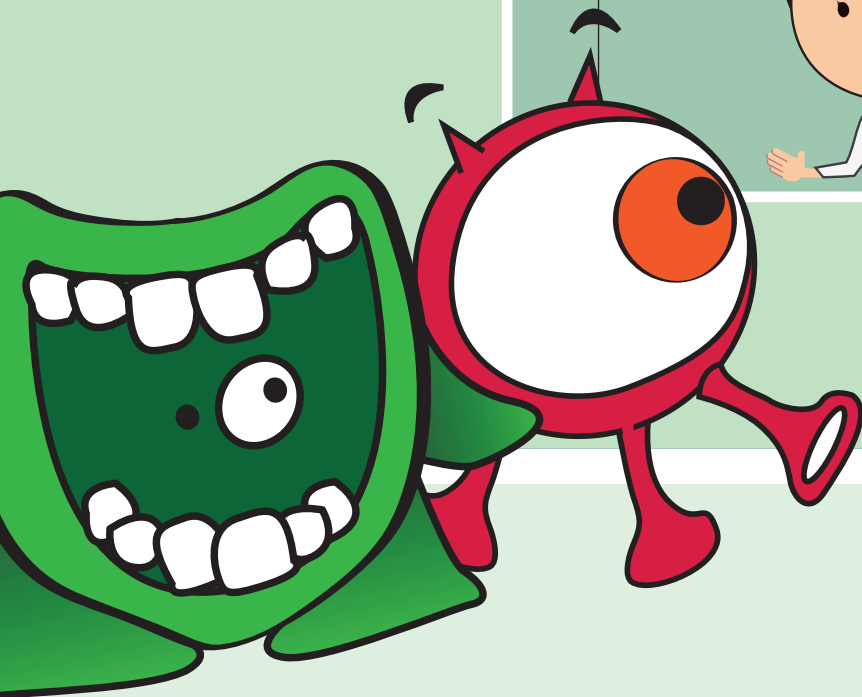

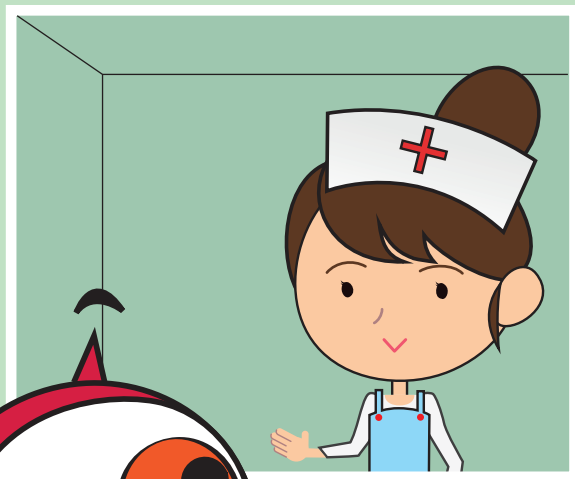

They were actually enjoying themselves!

When they had finished, they went to see the Nurse again.

“The Doctor said all of your tests have gone perfectly and you are growing very well” she said.

“Now all you need to do is book another appointment for six months time, and keep up the good work!”

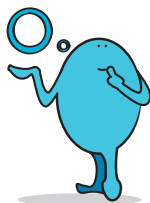

Megabyte and Big Eye were given gold stars
from the Nurse for being so good.

This made them look forward to going back in
six months time.

Maybe they would get another gold star!
