

# INSPIRED BY BREASTMILK

Nutrícia develops special formulae for infants on restrictive diets, such as those with inborn errors of metabolism

## NUTRICIA: MORE THAN 60 YEARS OF RESEARCH IN INFANT NUTRITION AND IEMS

Breastfeeding as a source of inspiration has led to the development of the prebiotic fibre blend scGOS:lcFOS (9:1)

- 90% short-chain galactooligosaccharides (scGOS)
- 10% long-chain fructooligosaccharides (lcFOS)

### SCGOS/LCFOS (9:1) IS THE MOST RESEARCHED PREBIOTIC COMPOUND\*

30 clinical trials

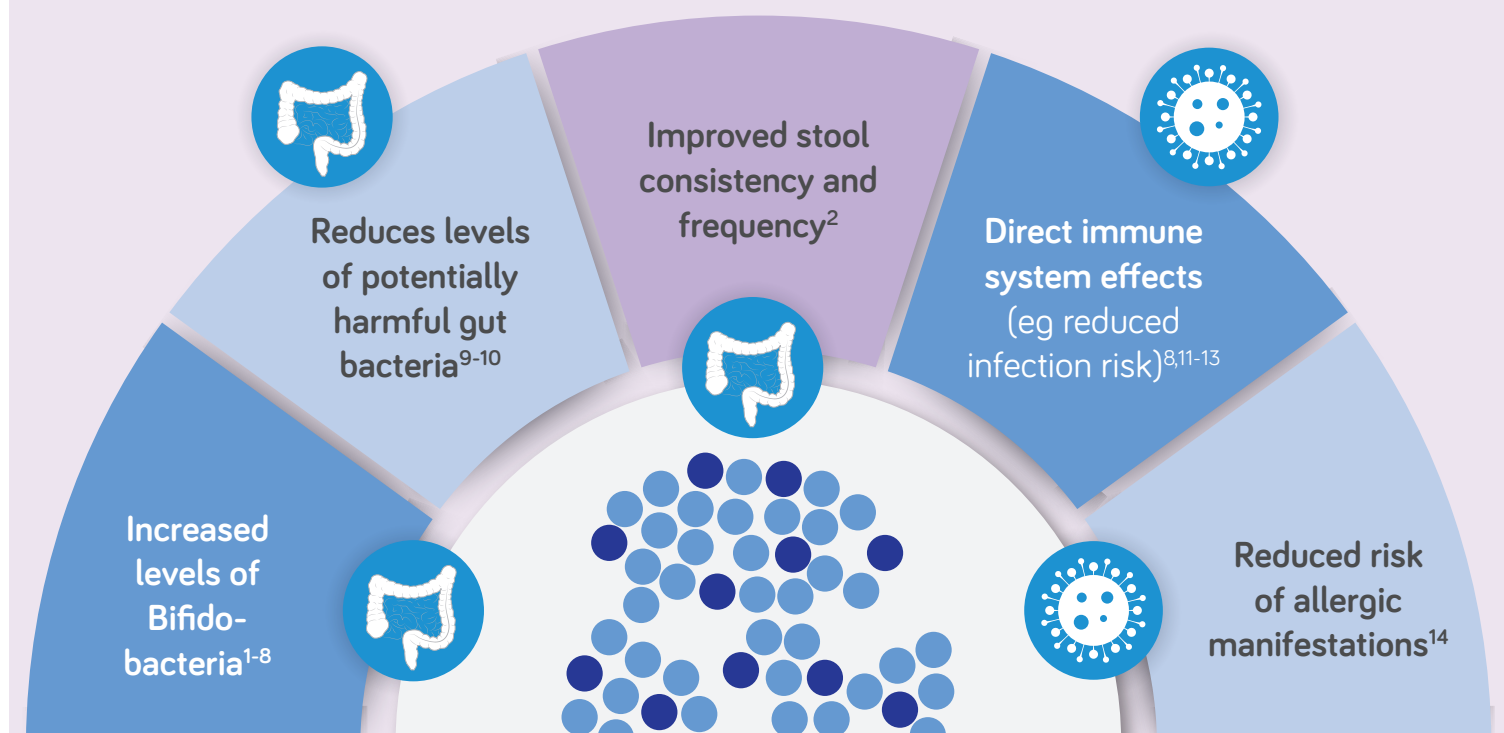

55 publications

\*ISAPP - International Scientific Association for Prebiotics and Probiotics

### BENEFITS OF SCGOS/LCFOS DEMONSTRATED IN CLINICAL TRIALS IN HEALTHY INFANTS
