

# FORTIJUICE

## Description

Fortijuice is a Food for Special Medical Purposes for use under medical supervision. Fortijuice is a high energy (15kcal/ml), ready to drink, juice style nutritional supplement for the dietary management of disease related malnutrition. Fortijuice can be used to supplement the diet of patients unable to meet their nutritional requirements from other foods and for those who do not like, or tire of milk tasting supplements. Fortijuice is fat free and is suitable for patients on a low fat diet.

Available in 200ml bottles in seven flavours: lemon, apple, orange, strawberry, tropical, forest fruit, and blackcurrant.

## Indications

For enteral use only. ACBS approved, prescribable on form FP10 (GP10 in Scotland) for the following indications: short bowel syndrome; intractable malabsorption; pre-operative preparation of undernourished patients; inflammatory bowel disease; total gastrectomy; dysphagia; bowel fistulae; disease related malnutrition.

## Contraindications

Not suitable for children under 3 years of age.  
Not suitable for patients with galactosaemia.

## Precautions

Not suitable as a sole source of nutrition.  
Only to be used as a supplement to the normal diet.

## Directions for use

Fortijuice is ready to drink and is best served chilled. Shake well before opening.  
**Storage**  
Store in a dry, cool place (5-25°C). Shake well before use.  
Once opened, close the bottle and store in a refrigerator for a maximum of 24 hours.

## Shelf life

9 months. Best before date: see side of bottle.
